

Medisoft EMR (Medisoft Clinical EMR Software)

Now, at a price that smaller practices can afford.

The electronic medical record (EMR) component of Medisoft Clinical is a proven EMR that has helped thousands of practices like yours provide exceptional quality of care while improving financial performance. Base price starts at under \$17,500 including medical billing and EMR software.

Introducing Medisoft Clinical - A Complete PM/EMR solution

With the latest Medisoft release, McKesson now offers **Medisoft Clinical**, a complete practice management/electronic medical record (PM/EMR) solution that works seamlessly together to minimize practice disruption. Medisoft Clinical combines the practice management features of Medisoft v15 with a fully functional EMR at a price point geared to smaller physician practices like yours. Which **Medisoft Clinical**, you get the latest in practice management automation without a lot of hassle and at a price you can afford. Experience the best of both worlds with a combined PM/EMR solution that enables your offices to easily perform important office tasks like:

- Sharing demographic information to eliminate redundant data entry
- Automatically informing the nurse in the exam room area when a patient is ready for his/her appointment to save staff time
- Creating an electronic superbill that is populated with ICD-9 and CPT-4 codes based on the provider's SOAP notes

Call us now at 888-691-8058 or 941-743-6666 for more info or to order now.

Chances are practice currently uses McKesson's Medisoft practice management (PM) system or another solution to automate your scheduling, billing and accounts receivable processes. It's time to take the next step. By adding an electronic medical record (EMR) like the one in Medisoft Clinical, you can ultimately replace all paper in your practice to achieve maximum office efficiency, improve financial performance and enhance quality of care.

Maximize efficiency

Unlike other EMRs, **Medisoft EMR Clinical Software** feature a unique note-centric design that allows physicians to complete the entire chart from the progress note. Any information you add to the note - such as medications, vital sign results or lab results - automatically update the entire chart, all from the note.

- Documentation tools
- adapt to the providers
- style and offer a choice
- of data entry methods
- including:
- templates
- speech recognition
- transcription
- digital
- dictation
- web-based patient data entry

A provider dashboard lets you view all critical information - including messages, incoming results and a daily patient schedule - in one place.

In addition, a review of notes, documents and lab results.

Physicians also are able to quickly see overdue orders and track each order by patient, status and expected time for a result to return. In addition, incoming results automatically update order status.

Enhance quality

Medisoft Clinical offers easy access to the information you need to ensure exceptional care. An extensive knowledge base includes:

- Web-based access to hundreds of disease and medication protocols
- a board range of progress note template covering both primary care and specialty topics
- guidelines for diagnosis and treatment
- health maintenance protocols based on age, sex, disease, medications or other

conditions specific to the patient.

Physicians and other providers use the thousands of prescription templates and a comprehensive database of drug costs and checks - drug interaction, drug, allergy, drug/disease, drug/diagnosis - in addition to proactive dose advice.

Physician tools

- Analyze the note with a sophisticated coding adviser for Evaluation and Management codes using both the 1995 and 1997 CMS documentation Guidelines to optimize coding based on documentation.
- Load transcribed text and populate the entire patient chart including the problem list, medication list, medical histories and vital signs.

and have the transcribed text automatically go to the correct place in the notes.

- Import and export chart summary data using CCD or CCR formats. Communicate with other practices' EMRs or with the patient's personal health record (PHR).
- When importing data choose which chart sections to update while still keeping an entire copy of the imported document.
- Customize chart viewing by physician to allow provider (and specialty) specific views for charts, chat summaries and flow chart

Call us now at 888-691-8058 or 941-743-6666 for more info or to order now.
