

Mass Media Visibility Distribution List

This is partial list from PR Newswire for the Mass Media Distribution.

The complete list is 60 pages and can be requested by email at contact1950@24-7pressrelease.com

All of these points receive or have access to PR Newswire content, but how they use or display those feeds varies. For example:

- Large portals and general news sites typically publish every news release that is issued across the wire.
- Financial news, personal investment and stockbroker sites typically publish all news releases issued by publicly traded companies.
- Industry or topic-focused sites tend to publish only those news releases that are relevant to that industry or topic.
- Media and other sites use our content as source material for articles that are written by their own editors or journalists.
