Get Medisoft with ICD-10 Readiness

Are you ready for the new ICD-10 codes, which take effect on October 1, 2014?

ICD-10 Readiness and More

The transition from ICD-9 to ICD-10 will significantly impact your practices workflow, and Medisoft can help you manage the changes. With Medisoft v19, you can take advantage of several features that are designed to reduce manual entry and minimize the complexity of ICD-9 to ICD-10 mapping. With this release, you will be able to:

- Enter ICD-10 codes on your diagnosis list
- Set the code version by insurance carrier so you can continue to use ICD-9 codes for carriers who will not have transitioned by October 1, 2014
- Receive a notification if the wrong code is used for a carrier
- Use a mapping tool based on CMS's General Equivalent Mappings (GEM) to translate some ICD-9 codes to ICD-10

In addition to ICD-10 readiness, when you purchase today you get all the billing, scheduling and patient accounting enhancements currently available in Medisoft v19, including Medisoft Mobile. With this no-fee application for the iPad® and iPhone®, you can use your phone or tablet to view your schedule and to transmit diagnosis codes and notes to your front desk or biller.

Order Medisoft V19 with ICD-10 Readiness today. Call 888-691-8058 or 941-743-6666

Scheduling

First impressions can make or break a referral or patient experience. Keep patient satisfaction high with a streamlined scheduling process that reflects your efficient practice. Setting appointments that meet the needs of your patients and practice is quick and simple thanks to the flexibility of the Medisoft Office Hours Professional scheduling solution.

Revenue Management

Ensure the accuracy of your claims before you submit them. Medisoft allows you to verify patient eligibility and use pre-claim editing to review your filings for errors on the front end. You can dramatically reduce the number of returned claims that cost your practice time and money.

The revenue management solution translates and displays electronic remittance advice (ERA) in an intuitive window. The biller can efficiently review payment information, flag changes and post individual payments and adjustments.

Billing

Customizable rules-based grids allow you to generate claims that quickly and easily meet the filing requirements of different carriers. With that level of flexibility, your practice can manage virtually any claim submission. Medisoft includes numerous enhancements to comply with the new ANSI 5010 standards.

"Medisoft is delivering a night and day difference in practice productivity. Paper and manual processes are eliminated. Electronic access to patient information is driving better patient care."

- Jackie DiCapo, Southern Medical Solutions, McKesson Value Added Reseller

Patient Statements

Patient statements are made easy with integration between Medisoft and BillFlashSM from NexTrust. With BillFlash, you save time and money by uploading your patient statements directly from Medisoft. BillFlash will then print and mail your professional, patient-friendly statements. Learn more about the benefits of BillFlash at www.Billflash.com

Your Streamlined EHR Path

Accelerate and simplify your EHR implementation with a seamless upgrade to Medisoft Clinical. The combined EHR/practice management solution is designed to minimize the disruption to your practice when implementing an EHR. Medisoft Clinical can help provide a smooth and steady road to EHR.

Create ICD-10 Codes

Instructions 1:1 Mappings Other Mappings

The following ICD-9 codes have more than one possible ICD-10 mapping.

1. Click a line item in the top grid to see the suggested mappings in the bottom grid.
2. Select the check boxes for line items to see the suggested ICD-10 codes. You can edit the suggested codes in the New Code field as necessary.
3. Click Create Selected Codes when you are ready.

This icon in a line item indicates that the ICD-10 code already exists in your Diagnosis Code list but it has not been linked to an existing ICD-9 code. If you select this line item, this ICD-10 code will be linked to its corresponding ICD-9 code.
